

TCAA team has entered in the 8th World Cup Tai Chi Chuan Championships in Taipei, Taiwan on October 28 and 29, 2023

World Tai Chi Chuan Championships

After an extended open expression of interest to all TCAA members, the TCAA has assembled a strong team of nine members (including four management committee members) to compete at the Eighth World Cup Tai Chi Chuan Championships on Saturday 28th and Sunday 29th October 2023 in Taipei, Taiwan.

The event is organised by the World Tai Chi Chuan Federation, Department of Sports Taipei City Government and the National Tai Chi Chuan Association, Taiwan R.O.C., and will be held at the Taipei Arena.

This is the first time that TCAA team members will be competing in the event.

They will compete as a group in the 24-form competition section, as well as in the Individuals competitions of traditional Yang styles forms, Sword, Broadsword forms and Push Hands.

TCAA's Head Coach for the competition is [Sifu Harvey Lee](#), with Team Leader/Manager being [Sifu James Gao](#).

This is an exciting event for TCAA, marking the first time it is officially sending a team from Australia to compete in a world championship event and represent Australia. Hopefully, media coverage of this event will help promote Tai Chi Chuan and Push Hands in Australia.

Also, for the first time, the event is being proudly sponsored by Ace Recycling Group, whose generous sponsorship will contribute substantially to TCAA's overall resources, along with covering costs specifically associated with this World Championship event.

About Ace Recycling Group ('ACE')

ACE is a leading Australian owned recycler of end-of-life electronic waste such as TVs, computers, mobile phones, peripherals, PV Solar panels and the like, with facilities in Victoria and Queensland.

The company plays a major role in delivering environmentally responsible recycling outcomes to councils, waste companies and households through government mandated recycling programs, with over 92% recovery of commodities such as metals, precious metals, plastics, glass etc. resulting in minimal landfilling.

ACE looks forward to a long and sustainable partnership with TCAA and wishes the team every success in the coming competition.
